

Our Services

The services we provide are twofold

1 Habilitative services within correctional settings

We build trust and rapport with individuals while they are still incarcerated. This in-depth process fosters self-understanding and helps individuals acknowledge the social, economic, and personal factors that contributed to their current path.

2 Community Reentry weekly peer support groups

Upon release, we encourage participants to attend our professionally facilitated peer support groups that target the "Big Four" dynamic risk factors. These groups provide a supportive environment for accountability, skill-building, and positive reinforcement.

Investing in a Safer Future...

We invite you to learn more about Safe Space and it's potential impact on your facility, family, home and community...

Presents

SAFE SPACE

We are a Reentry and community-based violence intervention program

We Stand Apart from the rest...

Many reentry programs focus on the "small four" criminogenic needs, which are:

Family/marital factors, lack of achievement in education/employment, substance abuse and lack of pro-social leisure activities. Those needs are often met by providing resources and skills training.

Research has shown that the small fours has limited impact on recidivism if core beliefs and social networks remain unchanged

Safe Space tackles the root causes by addressing the "Big Four":

- **Antisocial attitudes and values**
- **Antisocial behavioral patterns**
- **Antisocial companions**
- **Antisocial personality**

Our Mission

Safe Space is dedicated to providing a safe haven for justice-involved individuals and their loved ones to cultivate their inherent potential and build a fulfilling future.

Our Vision

We envision a world where justice-involved individuals have access to a supportive social space within correctional facilities and upon reentry to the community. Here, participants can dismantle limiting beliefs, unlock their full potential, and reintegrate as valued members of their communities. Safe Space also strives to create a safe and healing environment for families and the community at large.

Our Core Values

Our Values guide every interaction...

Integrity: We conduct ourselves with honesty and transparency

Individuality: We value the unique strengths and experiences of each participant

Respect: We treat everyone with dignity and compassion

Commitment: We are dedicated to supporting participants throughout their journey

Spirituality: We acknowledge the importance of fostering hope and inner peace

Accountability: We hold ourselves and participants responsible for their actions

Family: We recognize the vital role of families in the healing and reintegration process
